SUMMARY

AI Product Designer with a background in **Human-Computer Interaction** and **Data Science**. **2+ years** in **AI** and **health-tech startups**, specializing in 0 to 1 launches, design systems, and AI workflows. Strong in cross-functional leadership and translating complex requirements into scalable business solutions.

EDUCATION

University of Washington
Bachelor of Science in Informatics (Human-Computer Interaction and Data Science)
GPA: 3.89/4.0, Annual Dean's List

Seattle, USA
Graduation Date: Jun 2024

WORK EXPERIENCE

Omnireflex - AI Mental Health Companion (iOS App)
AI Product Designer (full time)

Shengzhen, China
Jun 2025 - Present

- [Product strategy and roadmap]:** Shaped product strategy for a mobile **AI companion gaming app**, using insights from **74 user surveys**, **13+ competitor analyses**, and **137 beta users** to define **roadmap priorities** and the **MVP loop**.
- [Requirement definition and validation]:** Produced product requirement documentation and feature specifications covering product flows, interaction logic, and requirements across 121 screens, validating implementation through reviews with engineers.
- [AI prompt design and content production]:** Leveraged multiple **AIGC tools** and crafted **precise AI prompts** for text-to-image and text-to-video generation, producing visual assets for in-app uses, App Store presentation, and launch campaigns.

Bestmylife - B2B Brain Bank Database Platform
Product Designer (contract)

Shengzhen, China
Feb 2025 - Jun 2025

- [Information architecture improvement]:** Optimized the dashboard interface used across **25+ research projects**, aligning layout structure with user habits, improving task clarity and contributing to **\$500K in funding approval** for the next phase.
- [Hardware & supply chain research]:** Conducted smart health ring supplier comparisons across **6 vendors** and **8+ hardware components**, compiled findings into **product documentation**, and supported decision-making and cost-conscious planning.

Impulse – Peer Accountability App (683 user, 4.5★)
Product Designer (contract)

Remote, USA
Sep 2024 - Feb 2025

- [Retention and funnel optimization]:** Analyzed **drop-off points across the daily check-in journey** and redesigned the flow for a **200+ user beta cohort**, contributing to a **12% increase in retention**.
- [Product experience optimization]:** Collaborated cross-functionally on a visual system refresh that reduced *user-reported visual fatigue*, contributing to an additional **\$12K in investor funding**.

Avanade Inc (Microsoft + Accenture JV) - B2B tool
AI Product Designer (internship)

Seattle, USA
Jun 2023 - Aug 2023

- [Cross-functional product development]:** Collaborated with **PMs, engineers, and visual designers** to shape an **AI document analysis tool** for sales teams, designing workflows for **file upload, AI summaries, and question-based exploration** that reduced contract analysis time from **45 to 13 minutes**.
- [Requirements translation and delivery]:** Translated complex business needs into responsive product flows, delivering **146 interfaces across desktop, tablet, and mobile** in **2 agile sprints** to support **development handoff**.
- [Data flow modeling]:** Created **data flow diagrams** to map how **uploaded documents, AI processing, and user queries** move through the system, helping engineers understand the **AI analysis pipeline and system logic**.

AWARD & LEADERSHIP

Society of Women Engineer
2021 Best Impact Winner - Product Designer

Seattle, USA

- Built a donation platform for homeless support, winning **Top Impact Award** among 17+ teams.

SKILLS & INTERESTS

Product: Product Strategy, Feature Prioritization, Requirements Definition, User Research, Usability Testing, User Flow, Prototyping, Validation Testing, Agile
